

## Perimeter-Shapes

Draw and find the perimeter of each shape.

A PENTAGON with a length of 8ft. for each side.

A HEXAGON with a length of 10ft. for each side.

A HEPTAGON with a length of 6ft. for each side.

An OCTAGON with a length of 4ft. for each side.

How do you find the perimeter of a shape?

---

A rectangle has length of 4cm for the short sides and a length of 9cm for the long sides. Draw, and find the area and perimeter
